

The Foster Grandparent Program is an important component of the care that is given to the families and their children at TLC: The Learning Center. We currently have six Foster “Grandmas” that are with us daily. Each Grandma works with the children of their room under the guidance of the room’s staff lead. The most important thing that they do each day is to hug, and comfort and provide the “extra” love for each and every child in their room. They sense and meet the needs of the children. They hold their hands, kiss their bumps and bruises and tell them how very special they are to world around them. Each and Every Grandma is irreplaceable to our program and we are so very thankful to be included in the Foster Grandparent Program of Charles City.
